Introduction

Jal Jeevan Survekshan (JJS) was launched by Hon'ble vice President of India on 21st Oct.2022 to assess districts and states on their performance in achieving the objectives of the JJM. The overarching purpose is to motivate and to bring in healthy competition among the districts, while recognizing the efforts of the top performing districts on monthly and quarterly basis. Under JJS, there will be monthly, quarterly, and annual ranking & felicitation of districts as per the pre-defined criteria.

Components of Jal Jeevan Survekshan:

- ◆ Self-reporting in JJM-IMIS portal.
- ◆ Assessment of functionality of tap connections and ground truthing, through an independent agency.

Recognition of performance of districts

The performance of districts is calculated based on key performance indicators chosen based on coverage percentage of household tap water supply in the districts/state. The broad categories are as under

- i) Physical progress (50 Marks)
- ii) Water quality monitoring & surveillance (30 Marks)
- iii) Institutional arrangements for assured water supply (20 Marks)

Category of States/ UTs

The categorisation of states is also done in the categories as below

- i) Coverage of HH tap water supply is < 50%
- ii) Coverage of HH tap water supply is > 50% & < 75%
- iii) Coverage of HH tap water supply is > 75% & < 100%

Category of districts

S. No.	Coverage	Category
1.	0% to less than 25%	Aspirants (★)
2.	25% to less than 50%	Performers (★★)
3.	50% to less than 75%	Achiever (★★★)
4.	75% to less than 100%	High Achiever (★★★★)
5.	100%	Front Runner (★★★★★)

Felicitations:

In order to motivate districts, following felicitation are given

Monthly felicitation of districts:

- ◆ **3 Best performing districts in each category (15) -** For each of five categories the performance score of districts is key performance indicators (KPIs). The top three scoring districts in each category is recognised.
- ◆ **3 fastest moving districts within each category (12) -** For each category three districts that have provided highest coverage in percentage terms taking base line as beginning of the month, are selected.
- ◆ **Districts graduating to higher categories** - The districts that increase the % coverage of HHs and move to higher categories are noted here

Quarterly felicitation of districts:

- ◆ 5 Fastest moving districts within each category
- ◆ 3 Best performing districts in each category
- ◆ 3 Best performing aspirational districts in each category
- ◆ Fastest moving Aspirational district in each category

This Bulleting covers monthly ranking for December 2022 & quarterly ranking for Oct-Dec 2022.

Ranking of States

States have been categorised based on the percentage coverage of household tap water connection in rural households, in below three categories

- i) 0% to less than 50%
- ii) 50% to less than 75%
- iii) 75% to less than 100%

Further, to arrive ranking of a state/UT in each month, below formula has been used

Score of State/UT in a month = (Sum of scores of all the districts in respective state/UT)/(Number of districts in the state/UT)

Similarly, to arrive ranking of state/UT in a **quarter**, below formula has been used

Score of State/UT in a quarter = (Sum of scores of districts of three months in corresponding quarter in respective state/UT)/ (3xNumber of districts in the state/UT)

S. No.	State Name	Ranks			
		Oct. 22	Nov.22	Dec.22	Quarterly
50% to less than 75% Household Tap Water Connection					
1	Haryana	3	1	1	1
2	Puducherry	1	2	2	2
3	A & N Islands	2	3	3	3
4	Punjab	4	4	5	4
5	Goa	5	5	7	5

MONTHLY RANKING OF DISTRICTS

Ranking of districts based on weighted parameter in best performing category

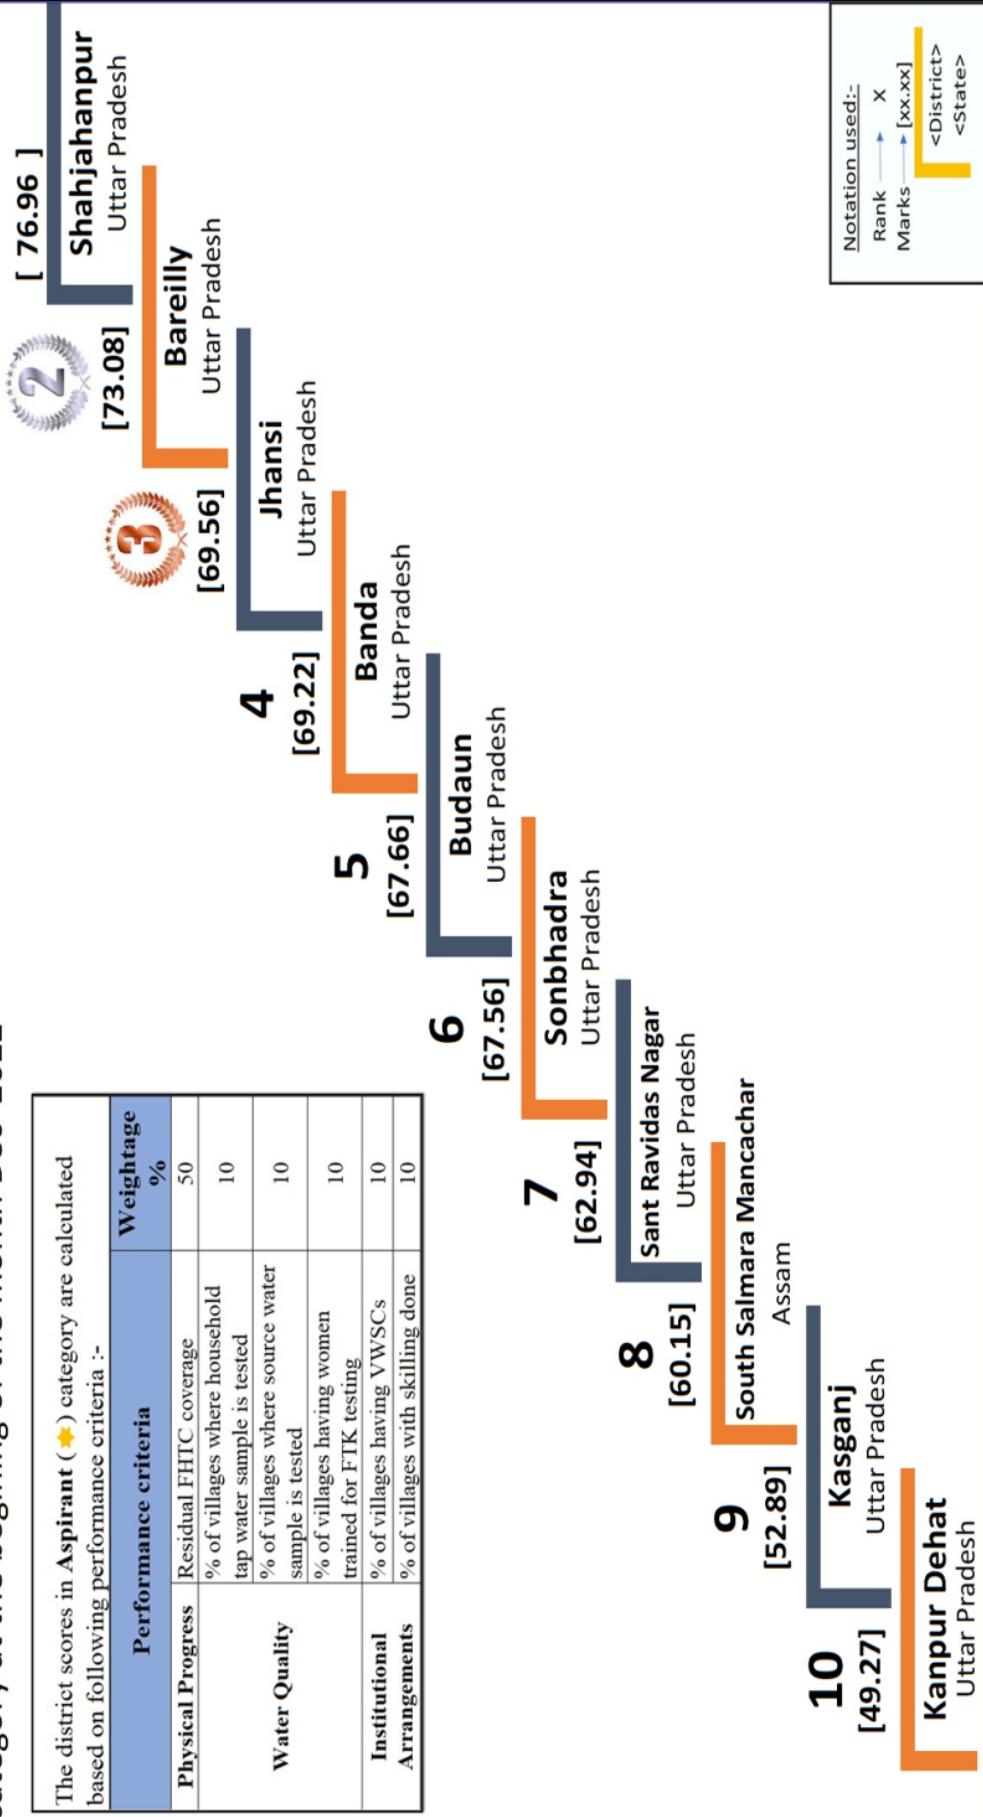

Top-10 districts in Aspirant (★) category in the month of December 2022)

Aspirant (★) category are districts having households with tap water connection from 0% to less than 25%. There were 108 districts in this category at the beginning of the month Dec' 2022

The district scores in Aspirant (★) category are calculated based on following performance criteria :-

Performance criteria	Weightage %
Physical Progress	Residual FHTC coverage
	% of villages where household tap water sample is tested
Water Quality	% of villages where source water sample is tested
	% of villages having women trained for FTK testing
Institutional Arrangements	% of villages having VWSCs
	% of villages with skilling done

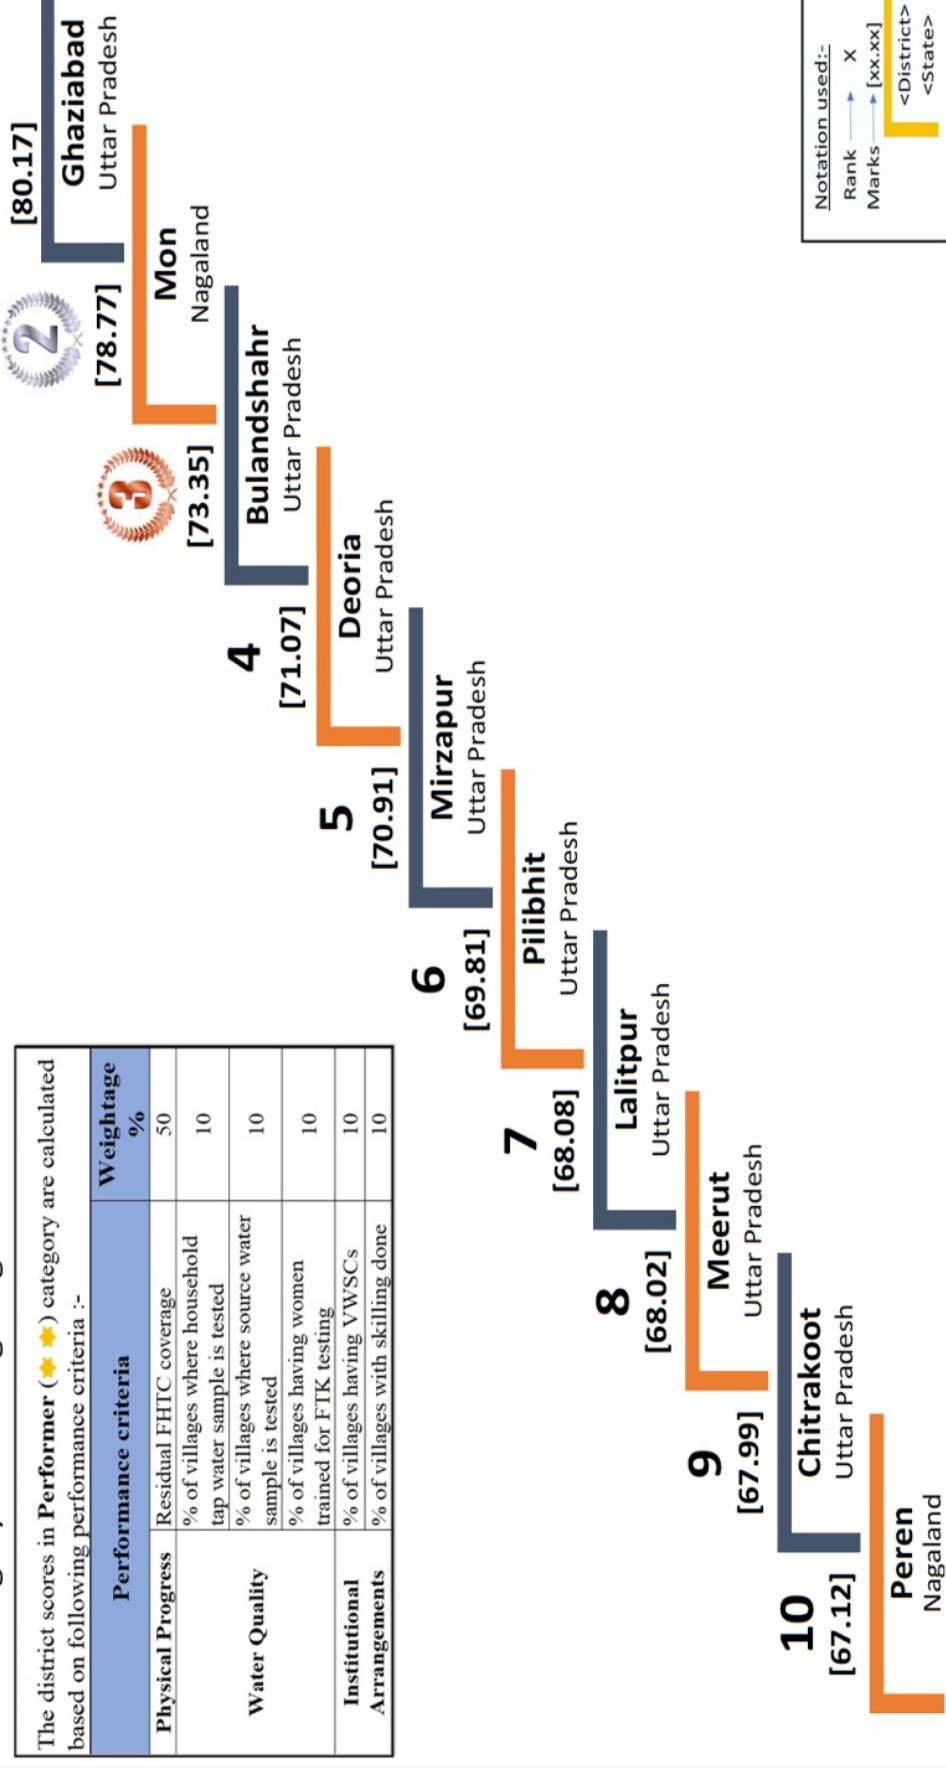

Ranking of districts based on weighted parameter in best performing category

Top-10 districts in Performer (★★★) category in the month of December 2022)

Performer (★★★) category are districts having households with tap water connection from 25% to less than 50%. There were 199 districts in this category at the beginning of the month Dec' 2022

The district scores in Performer (★★★) category are calculated based on following performance criteria :-

Performance criteria		Weightage %
Physical Progress	Residual FHTC coverage	50
	% of villages where household tap water sample is tested	10
Water Quality	% of villages where source water sample is tested	10
	% of villages having women trained for FTk testing	10
Institutional Arrangements	% of villages having VWSCs	10
	% of villages with skilling done	10

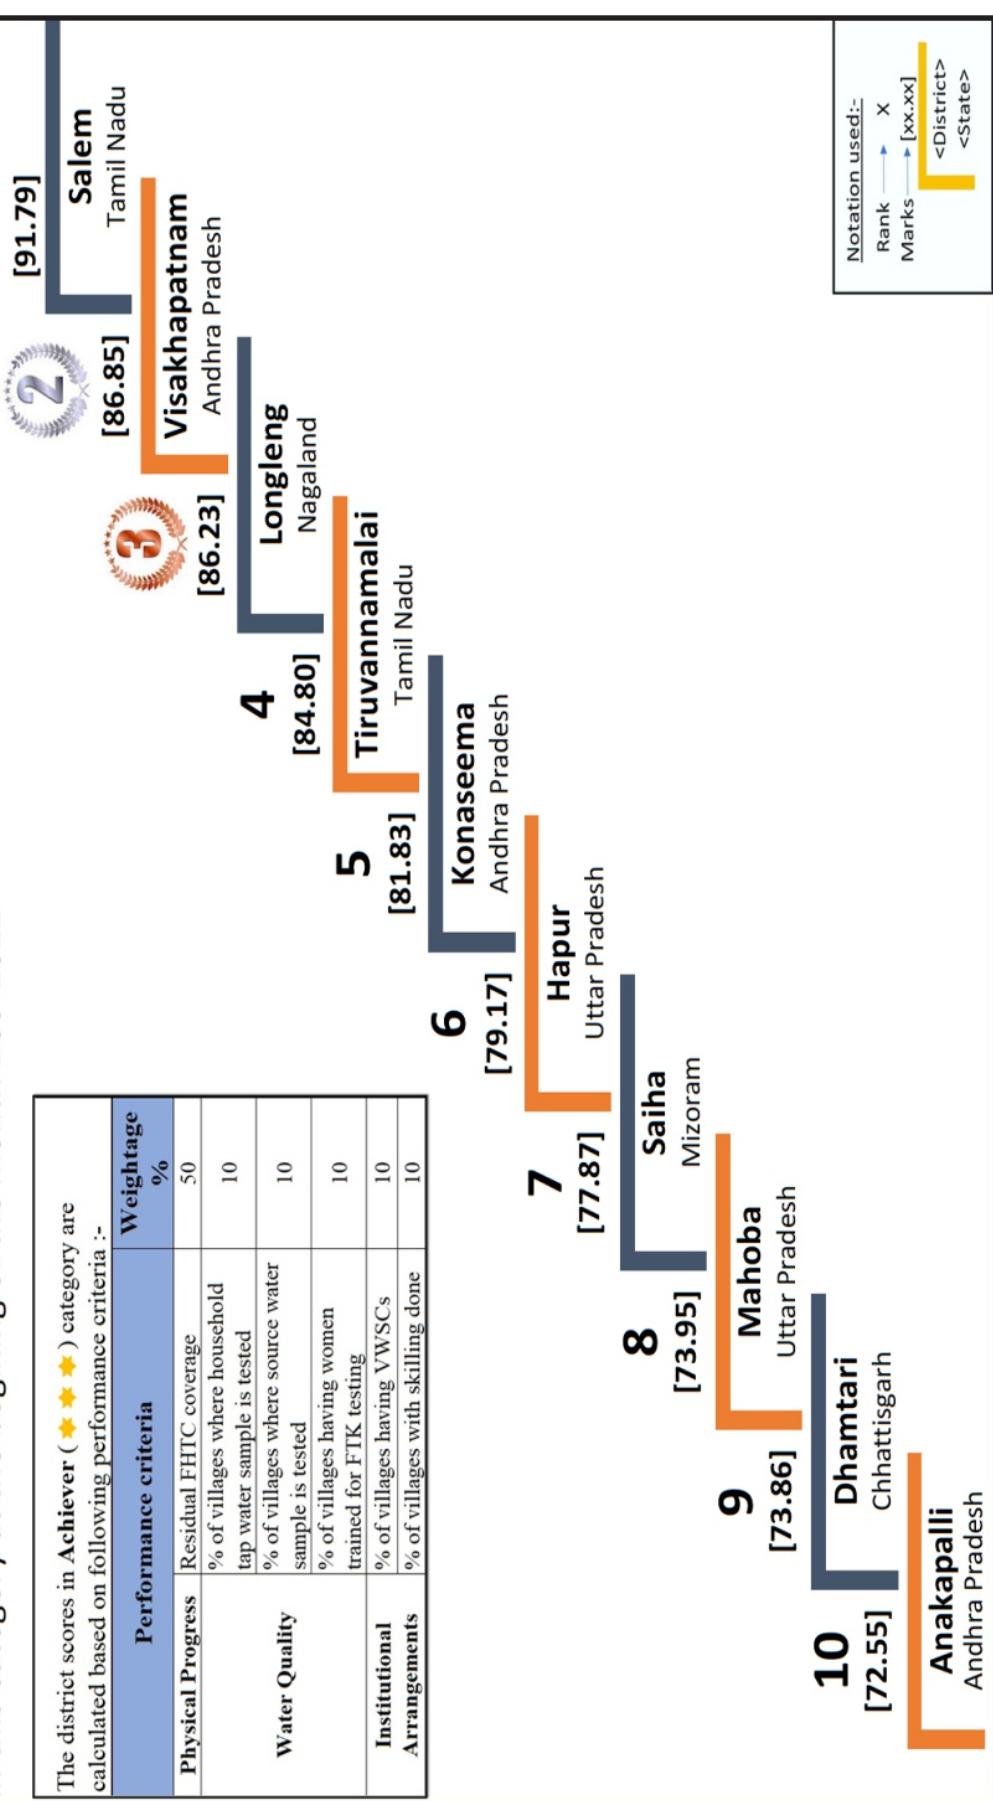

Notation used:-
 Rank → X
 Marks ↑ [xx:xx]
 ↓ <District>
 ↓ <State>

Ranking of districts based on weighted parameter in best performing category

Top-10 districts in Achiever (★★★) category in the month of December 2022

Achiever (★★★) category are districts having households with tap water connection from 50% to less than 75%. There were 172 districts in this category at the beginning of the month Dec' 2022

Ranking of districts based on weighted parameter in best performing category

Top-10 districts in High Achiever (★★★★★) category in the month of December 2022)

High Achiever (★★★★★) category are districts having households tap water connection from 75% to less than 100%. There were 124 districts in this category at the beginning of the month Dec' 2022

The district scores in High Achiever (★★★★★) category are calculated based on following performance criteria :-

Performance criteria	Weightage %
Physical Progress	40
Residual FHTC coverage % of Har Ghar Jal (H.G.J) certified villages by Gram Sabha	10
% of villages where household tap water sample is tested	10
% of villages where source water sample is tested	10
Water Quality	
% of villages having women trained for FTK testing	10
Institutional Arrangements	
% of villages where schemes are handed over to VWSCs	10
% of villages with skilling done	10

Ranking of districts based on weighted parameter in best performing category

Top-10 districts in Front Runner (★★★★★) category in the month of December 2022)

Front Runner (★★★★★) category are districts having households with tap water connection equal to 100%. There were 128 districts in this category at the beginning of the month Dec' 2022

The district scores in Front Runner (★★★★★) category are calculated based on following performance criteria :-

Performance criteria	Weightage %
Physical Progress	% of Har Ghar Jal (HGI) certified villages by Gram Sabha
	% of villages where household tap water sample is tested
	% of villages where source water sample is tested
Water Quality	% of villages having women trained for FTK testing
	% of villages where schemes are handed over to VWSCs
Institutional Arrangements	% of villages with skilling done

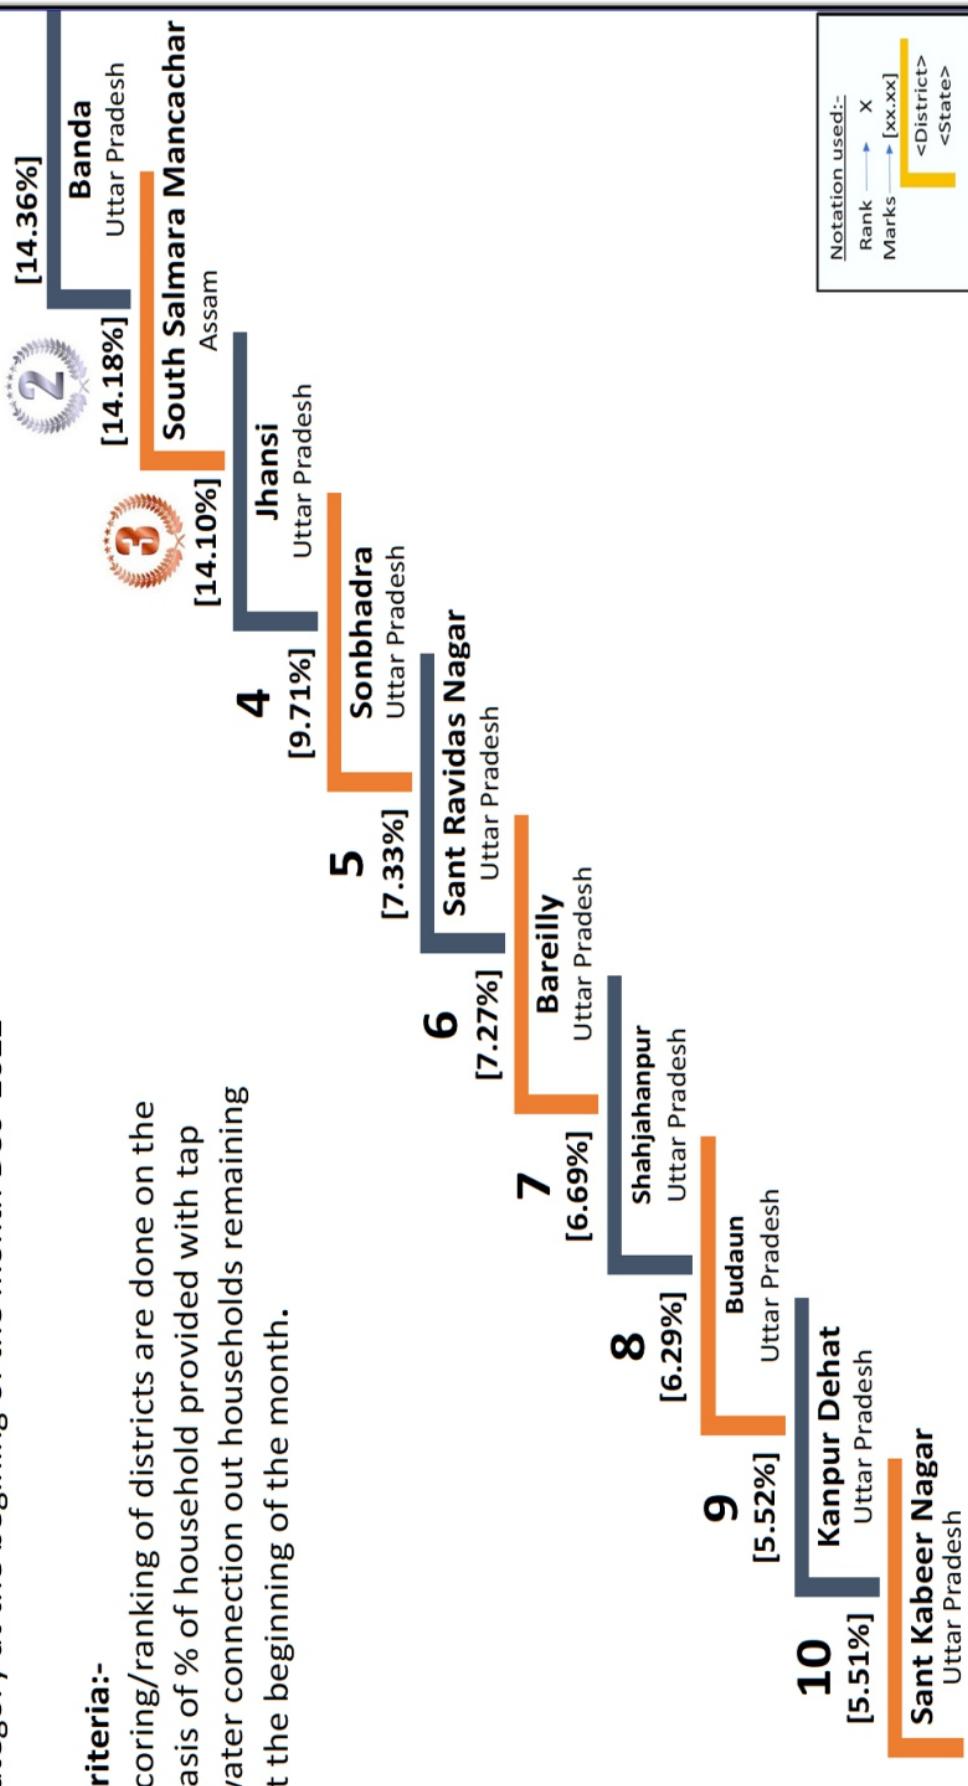

Ranking of districts in fastest moving category

Top-10 districts in Aspirant (★) category in the month of December 2022)

Aspirant (★) category are districts having households with tap water connection from 0% to less than 25%. There were 108 districts in this category at the beginning of the month Dec' 2022

Criteria:-

Scoring/ranking of districts are done on the basis of % of household provided with tap water connection out households remaining at the beginning of the month.

Notation used:-
Rank → X
Marks → [xx.xx]
