Principal Secretary/ Secretary
in-charge of Rural Water Supply & Sanitation
(All States)

Sir/ Madam,

As you are aware, under the National Rural Drinking Water Programme (NRDWP), provision has been made for setting up of Water & Sanitation Support Organization (WSSO) at the State level under State Water & Sanitation Mission (SWSM). At the district level, provision for setting up of District Water & Sanitation Mission (DWSM) have been made. Similarly, at the Block/ Mandal/ Taluka level, provisions have recently been made for setting up of Block Resource Centres. These institutional arrangements have been made in the context of the requirements of the NRDWP Framework for Implementation and the Total Sanitation Campaign. Under the NRDWP a holistic view has to be taken of rural drinking water, local water resources management, hygiene and sanitation, linkages and convergence with different programmes, activities have to be established and support and handholding has to be provided to the Gram Panchayats, Village Water & Sanitation Committees (VWSCs) and local communities to take a greater role in planning, implanting and managing drinking water and sanitation programmes. Similarly the Total Sanitation Campaign aims at ensuring total sanitation coverage by motivating village communities and the Gram Panchayat to lead the campaign and make their village open-defecation free.

2. Recently some of the States have sought more clarity on the institutional arrangements as well as manpower for these institutions. The following revised detailed provisions are being made under NRDWP:
